

SFCC Book Buyback

Welcome to the State Fair Community College Online Buyback!

- Buyback funds will be applied to your student account. If you have a balance due on your account, this credit will be applied to those charges first. Any remaining credit balance will be refunded to you within approximately two weeks.
- We know your books have been used, and it's okay if they have some highlighting and notes in them. Just don't send us books that are damaged or marked up so much that another student can't use them. If your book has water damage, coffee stains, torn-off covers, missing pages or if your dog chewed on it, we don't want it!
- Please note that we can **only accept 1 copy per title per student**. If you send us more than 1 copy or if you send us badly damaged books, they will be discarded.

Don't hesitate to contact us at CampusStore@sfccmo.edu with any questions.

Buyback process and price

We primarily buy books that are being used in the upcoming semester and typically pay about 30% of the new price. If the book is not being used on our campus or we are overstocked, we check the database of a national used-book partner and pay you whatever they currently offer. In some cases, when there is no demand for a book (e.g. it went into a new edition or came from a foreign publisher), we are unable to purchase your book.
